

28 June 1984

MEMORANDUM FOR THE RECORD

SUBJECT: Telephone Call From Senate Staffer Concerning the IEEW

Mr. Erland H. Heginbotham of the Senate Foreign Relations Committee called the Production Group on 27 June 1984--readers of the IEEW are directed on page one of each issue to call us with comments and queries--to say that he found the 15 June 1984 IEEW article on high-tech ceramics highly worthwhile. He expressed interest in seeing a similar article appear on the "carbon fiber question," having been told by a friend of his that Japan is investing a great deal of money in carbon fiber research.

I assured him I would pass his comments and telephone number on to the appropriate individuals but made no other commitments. [redacted] Deputy Chief of OGI's Civil Technology Industry Division, has been informed of the call.
